January 25, 1961

Professor James W. Silver  
University of Mississippi  
Department of History  
University, Mississippi

Dear Professor Silver:

I am grateful to you for your fine and friendly letter of January 15. I understand the predicament you find yourself in and realize that you are doing the very best you can about it.

We do not have anyone in mind to whom we should want to assign the topic of "Confederate Propaganda and the Press," preferring to wait on you! Perhaps, you can work yourself around to it sometime during the next couple of years. Just remember, please, that we are still interested in having a second volume from you for our series.

I have asked Mr. Strickland to mail you copies of the Studies which you need to complete your set. I hope he has done this. If you have not heard from him, drop me a postal card and I will speak to him again.

I send you my best regards.

Sincerely yours,

*W. Stanley Hoole*
